129 credits – minimum required for graduation.   Additional information on electives on SE website under "Electives."

(1) Suitable science elective I courses are shown on SEAS approved list on the web.

(2) Science II electives should be chosen from approved 2000, 3000, and 4000 science or mathematics courses. See approved list on the SE website.

(3) Nine credits of humanities and social science electives should be selected in a related subject area of humanities and social sciences.

(4) Nine credits of applications electives should be selected in a related applications area of systems engineering. See SE website for details.

(5) Six credits of technical electives. See criteria for technical electives on SE website.

(6) Fourth year Systems standing requires satisfactorily (C- or better) completing SYS 2001 and 2202 and also completing at least 4 of SYS 3021, 3023, 3034, 3060, and 3062.

(7) STS 1500 is a pre-requisite for many STS 2/3XXX electives. STS 2/3XXXis a pre-requisite for STS 4500.
